

AMENDMENTS TO THE SPECIFICATION

Please amend the title of the invention as follows:

LID FOR A SNUFF-BOX LID WITH STORAGE SPACE

Please amend the paragraph beginning at page 2, line 22, as follows:

In order to further improve the sealing of the filled snuff-box and thereby also to ensure the product quality, the box, after filling, may be sealed with foil 15 which is adhesively bonded or welded to the upper edge of the side wall 9 of the bottom container. In a preferred embodiment the foil 15 is bent downwards, leaving the necessary room for the space 11 that is defined by the bottom lid and the cover lid.
